PROFESSIONAL SUMMARY

Digital Design and Development graduate with experience in content creation, marketing design, and front-end development. Passionate about creating engaging digital experiences that support both user needs and brand goals.

WORK EXPERIENCE

Front-End / Full-Stack Developer

September 2025 – December 2025

GotIt Web App

- Developed a full-stack web application that simplifies dense compact manuals for electrical students.
- Integrated a PDF viewer and built a custom toolbar to personalize user interaction.
- Collaborated with designers and project owners to identify core functionalities and translate design concepts into functional components.
- Performed user testing and incorporated insights to enhance overall user experience.

Marketing Design Intern

April 2026 – May 2026

SpinaliS Chairs, 256 7th Ave W, V5Y 1M1

- Redesigned advertorial landing pages on the Shopify website to improve visual presentation and user engagement.
- Applied e-commerce and digital marketing best practices through Merchant Mastery training and research.
- Created social media graphics and layouts for Facebook and Instagram to support brand awareness and content marketing initiatives.
- Designed 12 email templates for the subscriber onboarding and post-subscription email flow, ensuring consistent branding and user experience.

Barista

September 2023 – Present

Starbucks, 1718 Marine Drive, V7V 1J3

- Prepared handcrafted beverages and food items, while maintaining quality standards.
- Handled and operated cash payments and transactions.
- Collaborated with team members to develop teamwork and communication skills.
- Developed strong multitasking skills by balancing drink preparation, order fulfillment, and customer interactions.
